

Colin Taylor

Position - Associate Director, Façade Designer

Qualification - BEng (Hons) Civil Engineering with Architecture (University of Glasgow)

Colin has around 12 years industry experience and specialises in front-end design, working closely with Architects to realise their visions, within sensible and pragmatic parameters. He has worked on many high profile projects, both in the UK and abroad, and has spent some time working in California, USA.

Colin has experience in most building sectors in the UK and abroad, including commercial, residential, retail and Arts buildings. He is currently working on a wide variety of schemes across these sectors with a number of different clients, architects and design teams.
