

## Darren Anderson

Position - Director, Geologist

Qualification - BSc (Hons) Geology, MSc Geomaterials (University of London)

Professional Association - Chartered Geologist, Fellow of the Geological Society of London.

Committees - British Standards Committee B/545 Natural Stone

Darren has almost 20 years of industry experience working as an engineering geologist for large UK consultants. He is very client focussed and balances technical knowledge with commercial acumen to deliver sound advice and direction, in stone selection, procurement and installation for both new build and restoration projects.

His client base includes Architects, Developers and Sub-Contractors, with who he has built relationships with on repeat projects over the last 10 years.

Darren has travelled widely in the course of delivering his projects, which has seen many visits to quarries and manufacturing facilities in Europe and Asia.
