

Duncan Richards

Position - Director, Façade Designer

Nationality - British

Qualification - BSc (Hons) Civil Engineering, University of Lancaster 1987.

Professional Association - Chartered Engineer, Member of Institute of Civil Engineers

Duncan has extensive experience in many sectors, such as commercial, residential, Arts, transport, retail and Public buildings. Duncan has been involved in a number of challenging developments, designed by signature Architects, in the UK and abroad. His client base includes Developers and Architects, who seek a balanced blend of creativity, experience and pragmatism that is key to the successful delivery and realisation of his projects.

Duncan's portfolio includes many signature buildings in London, other regional UK cities and overseas.
