

Gianluca Rapone

Position - Senior Façade Engineer

Qualification - MSc Architecture & Engineering PhD Energy Performance of Façades

Gianluca has over 5 years of experience working in the façade industry. He has worked on a large number of projects in the UK, Europe and the Middle East, gaining experience at all stages of project development from concept design to construction on site. Before moving to London Gianluca had successfully completed a PhD in Italy on energy related optimisation procedures for the design of building envelopes.

Gianluca specialises in all building physics aspects of building envelopes. His skills in assessing the energy and environmental performance of different envelope options allow him to adopt a holistic approach for an optimised design of façades.

Gianluca has a comprehensive knowledge of façade design, procurement and post tender services, which enables him to manage the façade package throughout all project stages. He also has experience working with existing listed buildings.

Key FMDC project involvement:

Wood Wharf A1, London

245 Hammersmith Road, London

Southbank Shell Tower, London

Selected key previous projects prior to FMDC employment:

Television Centre, London

The Florey Building, Oxford

One Blackfriars, London

The Scalpel (52 Lime Street), London

Abu-Dhabi Airport, Abu-Dhabi

ENI De Gasperi East Project, Milan

Regent Street W5, London
